## 2026 MCCG Transportation Platform

*The MCCG will advocate for federal and state infrastructure funding in 2026. Programmed funding should be maintained for important projects currently underway and planning for future projects should continue.*

### Priority Projects

1. **Full Improvement of IL 31 from IL 120 in McHenry to IL 176 in Crystal Lake** – This corridor will help move commuters and commerce between McHenry and Crystal Lake with connections to points north into Wisconsin and south to I-90 and beyond.
2. **Full Improvement of IL 47 from Reed Road in Huntley to US 14 in Woodstock** – This project includes the IL 176 and IL 47 intersection improvement project and is vital to the flow of commerce between I-90, the Village of Huntley, the City of Woodstock and points north.
3. **Metra Woodstock Yard Site** - This regionally supported project will increase service levels and ridership on the second busiest commuter rail line in the Chicago region. This project has received support at the local, county, state and federal level and will enable higher weekend ridership to a possible Chicago Bears stadium in Arlington Heights.

4. **Safety Improvement of State Intersections** – The MCCG advocates for state intersection improvement safety projects in McHenry County, including, but not limited to the following. These projects will reduce crashes and increase safety.
  - IL 31 at Three Oaks Road in Crystal Lake
  - IL 31 at Ringwood Road in Ringwood
  - US 14 at Three Oaks Road in Cary
  - US 14 at West Main Street in Cary

  - IL 47 at Charles Road in Woodstock
  - IL 120 at Charles Road/Greenwood Road in Woodstock
  - IL 120 at Chapel Hill Road in McHenry
